Professional photography and web design:

We make professional photos for restaurants, hotels or any other products for various purposes.

We make websites according to your wishes, otherwise in the Dreamweaver program, with which we can upgrade all Internet pages without any restrictions, and these pages are also visible on all mobile phones, tablets and computers. At your request, we place the website in various templates, for example: Wordpress or others.

By creating websites, we are extremely competitive in the quality and time of execution, we also take professional photos completely free of charge, only in such a case we do not give copyright so that these photos can be published anywhere else without our written permission. If you order the production of copyrighted photos, we will agree on the price.

Cultural Art Society, Humanitarian and Education:

We are preparing wide opportunities for cooperation in the cultural and artistic fields, education and humanitarianism. You could also get involved in cooperation, which can convince you of our quality work in the business field and varied, principled and uncompromising work in the social field.
